SUMMARY

Frontend Developer with 1+ years of hands-on experience building responsive web applications using React, React Native, and modern JavaScript. Confident in delivering user-facing features, implementing clean code practices, and collaborating effectively in agile environments. Open to growing into full-stack and backend development while continuously advancing technical expertise.

EXPERIENCE

Frontend Developer

Kasagi Labo

May 2024 - June 2025

- Implemented React and React Native best practices with TypeScript to ensure code quality and maintainability under senior developer guidance
- Applied technical SEO best practices across web applications to improve search engine visibility and performance
- Developed reusable UI components and implemented modern state management solutions including useState and RTK Query
- Integrated REST APIs using Axios for data fetching and implemented error handling with user-friendly fallback mechanisms
- Built responsive UI components using Tailwind CSS framework and Styled Components, contributing to consistent design systems across applications
- Implemented client-side routing using React Router to create seamless single-page application experiences
- Actively refactored existing code to maintain clean, readable codebase and improve overall code organization
- Participated actively in fast-paced development cycles within agile startup environment, engaging in SCRUM ceremonies and utilizing Jira for task tracking and sprint planning

HR Performance & Analytics Protégé

SD Guthrie

January 2024 - April 2024

- Implemented goal setting, quarterly reviews, and annual performance processes via Workday
- Defined KPIs for non-executive staff in collaboration with key stakeholders
- Created dashboards and visual reports to track HR metrics and support decision-making

Full-Stack Developer Intern

iLaunch Sdn Bhd

September 2023 - December 2023

- Designed and build the front-end of SisPAA 2.0 mobile app using Figma
- Updated and enhanced front-end and back-end features using Vue.js, Bootstrap 5, and APIs
- Collaborated with system analysts to align technical development with client requirements

EDUCATION

Bachelor of Computer Science (Hons.)

Universiti Teknologi MARA • 2024 • 3.51 CGPA

- Graduated with First Class Honours
- Relevant coursework : Data Structures, Enterprise Programming, Computer Security, Algorithm Analysis and Design, Data Mining, Statistics for Business and Social Science and Business Data Analytics

Diploma in Computer Science

Universiti Teknologi MARA • 2021 • 3.45 CGPA

- Relevant coursework : Structured Programming, Object Oriented Programming, Programming Paradigms, Information System Development and Web Application

SKILLS

Programming Languages: JavaScript, TypeScript, Python, Java, C++, HTML, CSS

Frameworks & Libraries: React, React Native, Vue.js, Next.js, Bootstrap, Tailwind CSS

State Management: useState, RTK Query, Redux

Tools & Technologies: Git, Jira, Figma, Postman, REST APIs, Axios, React Router

Package Managers: npm, yarn, pnpm

Databases: MySQL, MongoDB, Firebase, Supabase

Development Practices: SCRUM/Agile, Technical SEO, Responsive Design, Code Refactoring

Analytics & Visualization: Power BI, RapidMiner

Languages: English, Bahasa Malaysia, Mandarin
